GEOMORPHOLOGY

Contents Volume 28, 1999

Vol. 28, Nos. 1–2

Editorial Note v

Research Papers

The impact of Quaternary sea-level and climatic change on coastal alluvial fans in the Cabo de Gata ranges, southeast Spain
A.M. Harvey, P.G. Silva, A.E. Mather, J.L. Goy, M. Stokes and C. Zazo 1

Sediment sources and siltation in mountain reservoirs: a case study from the Central Spanish Pyrenees
B.L. Valero-Garcés, A. Navas, J. Machín and D. Walling 23

Late Pliocene and Pleistocene reversal of drainage systems in northern Israel: tectonic implications
A. Matmon, Y. Enzel, E. Zilberman and A. Heimann 43

Tributary–trunk stream relations in a cut-and-fill landscape: a case study from Wolumla catchment, New South Wales, Australia
G.J. Brierley and K. Fryirs 61

Relationship between extensional tectonic style and the paleoclimatic elements at Laguna El Fresnal, Chihuahua Desert, Mexico
J.O. Campos-Enriquez, J. Ortega-Ramírez, D. Alatriste-Vilchis, R. Cruz-Gática and E. Cabral-Cano 75

Paraglacial and postglacial debris flows on a Little Ice Age terminal moraine: Jamapa Glacier, Pico de Orizaba (Mexico)
D. Palacios, G. Parrilla and J.J. Zamorano 95

Truncation and accretion of soil profiles on coastal plain croplands: implications for sediment redistribution
J.D. Phillips, M.C. Slattery and P.A. Gares 119

The drainage of the Lake Ha!Ha! reservoir and downstream geomorphic impacts along Ha!Ha! River, Saguenay area, Quebec, Canada
G.R. Brooks and D.E. Lawrence 141

The effect of slope length on the amount and size distribution of eroded silt loam soils: short slope laboratory experiments on interrill erosion
D. Gabriels 169

Book Reviews 173

Vol. 28, Nos. 3–4

Obituary 179

Research Papers

Landscape development in the Royal Society Range, southern Victoria Land, Antarctica: stability since the mid-Miocene
D.E. Sugden, M.A. Summerfield, G.H. Denton, T.I. Wilch, W.C. McIntosh, D.R. Marchant and R.H. Rutford 181

Alluvial fan and catchment initiation by rock avalanching, Owens Valley, California
T.C. Blair 201

A new model of topographic effects on the distribution of loess
J.A. Mason, E.A. Nater, C.W. Zanner and J.C. Bell 223

Morphotectonic zones along the coast of the Pacific continental margin, southern Mexico
M.-T. Ramírez-Herrera and J. Urrutia-Fucugauchi 237

Lava flow volume and morphology from digitised contour maps: a case study at Mount Etna, Sicily
N.F. Stevens, G. Wadge and J.B. Murray 251

Characteristics of stone covers on the surface of basalt flows in arid, northeast Jordan
D.L. Higgitt and R.J. Allison 263
Estimating mean flow velocity in channel and floodplain areas and its use for explaining the pattern of overbank deposition and floodplain retention
B. Wyżga 281
Impact of tectonics on alluvial landforms in the Hexi Corridor, Northwest China
Y. Li, J. Yang, L. Tan and F. Duan 299
Rockfall activity from an alpine cliff during thawing periods
N. Matsuoka and H. Sakai 309
The role of soil creep and slope failure in the landscape evolution of a head water basin: field measurements in a zero order basin of northern Japan
S. Yamada 329
